Sweat Blocker Solution

ANTIPERSPIRANT SPRAY

Suitable
Use For
Hyperhidrosis

STOP
SWEAT
AND
ODOUR
AT SOURCE

HOW NO SWEAT ANTIPERSPIRANT WORKS

When hot, nervous, or under pressure, the body sends signals to your sweat glands. These begin to contract and secrete sweat onto the surface of your skin. Without antiperspirant, this sweat is visible on clothing. Bacteria in sweat then break down lipids, producing malodorous waste products that creates the smell we all commonly identify with body odour. With NO SWEAT, the ultimate antiperspirant for men and women, you can now stop sweat and odor at the source, even for stinky feet. No need to use a lot. After one application, it can protect your feet for up to 7 days.

FIGHT HYPERHIDROSIS AND EXCESSIVE SWEAT

This clinical armpits, hand and foot antiperspirant is specially formulated to tackle hyperhidrosis, nerve sweat, and excessive sweating caused by hormonal imbalances or prescription drug side effects.

Hug, high-five, and kick off your shoes with confidence. Fight excessive sweating and eliminate foot and armpits odor with NO SWEAT deodorant spray, which also doubles as a clinical-strength deodorant. Say goodbye to hand sweat and stinky feet.

LIGHTWEIGHT FORMULA

Applying No Sweat Antiperspirant Gel is a breeze, with its weightless formula swiftly evaporating from your skin's surface. Enjoy a fuss-free experience with no need for additional accessories or touch-ups.

POTENT CONCENTRATED FORMULA

Formulated with a potent blend, this powerful antiperspirant gel is designed for optimal effectiveness when applied once or twice daily, reducing excess facial wetness without leaving residue or stickiness.

LONG LASTING EFFECT

Experience long-lasting outcomes as the efficient antiperspirant formulation curtails facial perspiration and minimizes visible dampness and shine, providing confidence for hours on end.

SEAMLESS MAKEUP OR OTHER FACE CREAM APPLICATION

The feather-light composition of No Sweat Antiperspirant Gel allows for smooth makeup, moisturizer, and other product application, ensuring a comfortable base for sunscreen, foundation, and other essentials.
